The Excess Inventory  
Challenges  
Facing Most

# COMPANIES,

Through

the normal course of business, most companies occasionally find themselves **holding varying levels of unwanted**

**inventory,  
capital goods,  
machinery,  
excess receivables or undervalued  
and distressed assets**

that aren't performing or providing **ROI**.

## Excess capacity

and undervalued assets exist in every company ñ from idle or devalued property, plants and equipment to excess inventory no longer required, unwanted sponsorships, or underperforming business units.

**When businesses liquidate these assets**  
they typically realize only **10 to 40%** of the book value.

Instead of liquidating these assets for pennies on the dollar, companies can now realize up to **100% of their full value** through Salestream.

## S a l e S t r e a m

offers a range of custom solutions to help our clients recoup

**u p t o 1 0 0 %**

of the book value of their assets and inventory.

SaleStream

Salestream solutions help companies recover lost value from a broad range of **u n d e r p e r f o r m i n g** or **d i s t r e s s e d a s s e t s** or from an asset that has lost some or most of its value or to fund new initiatives.

SaleStream offers an innovative way to sell off all your excess inventories and distressed assets at full retail value **in 24 hours.**
